PROFESSIONAL SUMMARY

Product Manager at Vrtx with experience across mobile, web, and developer-facing products in the fintech sector. My work includes defining product requirements, prototyping solutions, and validating features before launch. Also exploring and developing personal product ideas, with a strong interest in technology and innovation.

EXPERIENCE

Associate Product Manager Jan 2026 – Present
Vrtx — Riyadh, Saudi Arabia

- Lead Mobile SDK product development, from requirements to cross-platform validation, supporting early client integrations.
- Define product requirements and user stories, and build interactive prototypes for SDK customization and business-facing features.
- Contribute to fraud prevention initiatives through product requirements, vendor research, and internal portal prototyping.
- Develop technical documentation and release notes to support SDK integrations and developer experience.

CO-OP Intern Jun 2025 – Dec 2025
Aramco — Dahran, Saudi Arabia

- Assessed industrial control system vulnerabilities, prioritized security risks, and supported patch management activities.
- Developed an internal Communication Matrix website to centralize employee communication channels and improve information accessibility.

PROJECTS

AOUN: Smart Unified Reporting System 2025

- Developed a Flutter & Firebase mobile app and web dashboard for incident reporting.
- Integrated AI/NLP capabilities to automate incident classification and routing.
- Awarded 3rd place in the college's Graduation Project Competition.
